

GLOBAL STAR
TRADING & SHIPPING FZ-LLC

RAS AL KHAIMAH · UAE

COMPANY PROFILE

Raw materials that build the world.

We trade, ship and supply premium quality raw materials for construction, cement and heavy industry – delivering quality materials and building stronger tomorrows.

TRADING

SHIPPING

LOGISTICS

Delivering quality materials. Building stronger tomorrows.

Global Star Trading and Shipping FZ-LLC is a dynamic, customer-focused company engaged in the trading, shipping and supply of premium quality raw materials for various industries.

Based in the Al Hamra Industrial Zone of Ras Al Khaimah, United Arab Emirates, we sit close to the Arabian Gulf, rich mineral resources and some of the most efficient ports in the region.

We supply gypsum, marble chips, bentonite, clinker, sand, gravel and stones, iron ore and slag – and back every shipment with shipping and marine operations, logistics, ship management and commercial brokerage. One partner, from port to site.

RAK, UAE

AL HAMRA INDUSTRIAL ZONE

Premium quality

Sourced globally and graded for consistency, lot after lot.

Reliable supply

A strong global network with local expertise in the UAE.

On time, every time

Shipments planned port to site, on schedule.

Commitment to excellence

Long-term partnerships built on trust and transparency.

07

Core raw materials, globally sourced

05

Integrated trade & marine services

01

Hub in Al Hamra, Ras Al Khaimah

Port → Site

End-to-end, door to door

Premium raw materials.

Sourced globally, graded for consistency, shipped on schedule — for construction, cement and heavy industry.

02

Marble Chips

Premium quality for construction

03

Bentonite

Industrial grade quality

● ACTUAL STOCK

04

Clinker

For cement industries

07

Core raw materials,
globally sourced

05

Sand, Gravel & Stones

Various sizes for construction

● ACTUAL STOCK

06

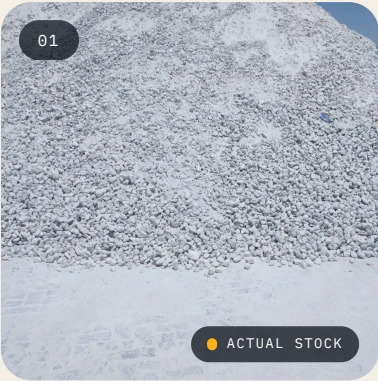

Iron Ore

High grade Fe content

07

Slag

Granulated & air-cooled

Gypsum

CEMENT · CONSTRUCTION

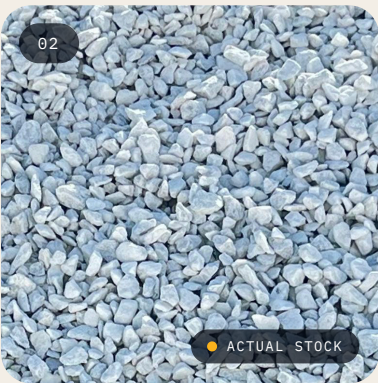

High-purity natural gypsum with brilliant whiteness and low impurities — stockpiled at our yard, crushed and graded to the size your plant needs.

APPLICATIONS

- **Cement** — set retarder at grinding
- **Plaster & board** — stucco, wallboard, tiles
- **Agriculture** — soil conditioner

AVAILABLE FORMS

Rock / lumps	Run-of-mine or sized
Crushed	Graded fractions
Powder	To fineness

Marble Chips

CONSTRUCTION · LANDSCAPING

Bright white marble chips prized for brightness, hardness and clean, uniform grading — a premium finish for floors, façades and landscapes.

APPLICATIONS

- **Terrazzo** & flooring
- **Precast** & architectural concrete
- **Landscaping** & decorative cover

AVAILABLE FORMS

Chips	Graded to order
Granules	For coatings
Pebbles	Tumbled sizes

Bentonite

DRILLING · FOUNDRY · CIVIL

Industrial-grade montmorillonite clay with excellent swelling, binding and sealing properties and consistent rheology, shipment after shipment.

APPLICATIONS

- **Drilling fluids** — oil, gas, water wells
- **Foundry** — green-sand binder
- **Pelletising & civil** — binders, slurries

AVAILABLE FORMS

Lumps	Raw, dried
Powder	Milled to mesh
Granules	On request

Clinker

CEMENT INDUSTRY

Well-burnt, nodular Portland cement clinker for grinding units and cement plants that need dependable, consistent feedstock for high-strength cement.

APPLICATIONS

- **OPC** — ground with gypsum
- **Blended cements** — slag, fly ash
- **Grinding units** without kilns

AVAILABLE FORMS

Nodules	As produced
Grades	OPC & special

05

Sand, Gravel & Stones

CONSTRUCTION · INFRASTRUCTURE

Ras Al Khaimah is one of the region's leading sources of quality aggregates. Sand, gravel and crushed stone in a full range of sizes, screened and graded to specification.

APPLICATIONS

- Concrete & asphalt aggregates
- Roads — sub-base and base course
- Marine & reclamation — armour rock, fill

AVAILABLE FORMS

Sand	Washed, fine-coarse
Aggregates	Graded fractions
Stones & rock	Gabion, armour

06

Iron Ore

STEEL · CEMENT

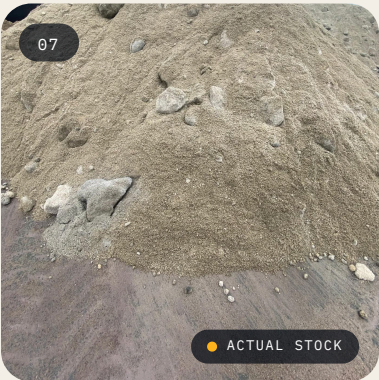

High-grade iron ore with strong Fe content — lump and fines for blast furnace, DRI and industrial processes, matched to your chemistry.

APPLICATIONS

- Steelmaking — BF and DRI routes
- Cement — iron corrective in raw mix
- Pellet & sinter plants

AVAILABLE FORMS

Lump	Sized to spec
Fines	Sinter & pellets
Powder	On request

07

Slag

CEMENT · INDUSTRIAL

Granulated and air-cooled slag, stocked in bulk — a sustainable by-product of iron and steel making that lowers the carbon footprint of cement and concrete.

APPLICATIONS

- GGBS — cement replacement
- Blended cements — lower clinker
- Roads & abrasives

AVAILABLE FORMS

Granulated	For GGBS
Air-cooled	Crushed aggregate
Steel slag	On request

NEED SOMETHING ELSE?

We source on request.

Looking for a material that isn't listed? Send us the specification and quantity — our network can source it.

Bulk vessel

Full and part cargoes for large volumes

Tug & barge

Coastal and regional bulk movements

Jumbo bags

FIBC bags for powders

Containers

Bagged or bulk-in-container

End-to-end, port to site.

01

Import & Export Trading

Global sourcing with competitive pricing – one team for sourcing, contracts, inspection, documentation and shipping.

- ✓ Trusted producer network
- ✓ Quality control before loading
- ✓ Flexible Incoterms (FOB, CFR, CIF)

02

Shipping & Marine Operations

Tug & barge services, vessel chartering and hands-on port operations to move bulk cargo safely and efficiently.

- ✓ Tug & barge services
- ✓ Voyage & time charters
- ✓ Loading & discharge supervision

03

Logistics & Transportation

Efficient, reliable delivery solutions that connect the quay to your construction site.

- ✓ Port-to-site delivery
- ✓ Bulk land haulage
- ✓ Scheduling & status updates

04

Ship Management & Rental

Professional ship management and rental intermediary services for owners and charterers.

- ✓ Commercial & operational support
- ✓ Owner-charterer matching
- ✓ Clear charter terms

05

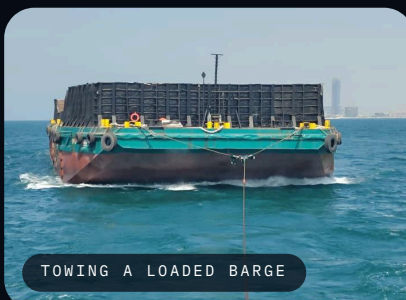

E-Commerce & Commercial Brokerage

Connecting buyers, sellers and opportunities worldwide with market insight and transparent deals.

- ✓ Commodity brokerage
- ✓ Fast online quotations
- ✓ Verified counterparties

OUR TIPPER FLEET AT THE QUARRY

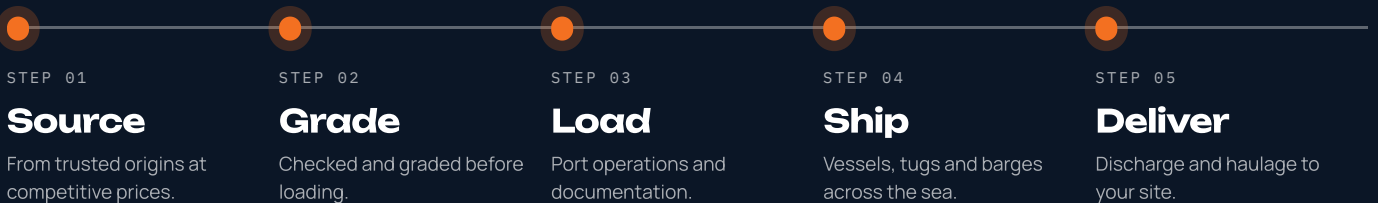

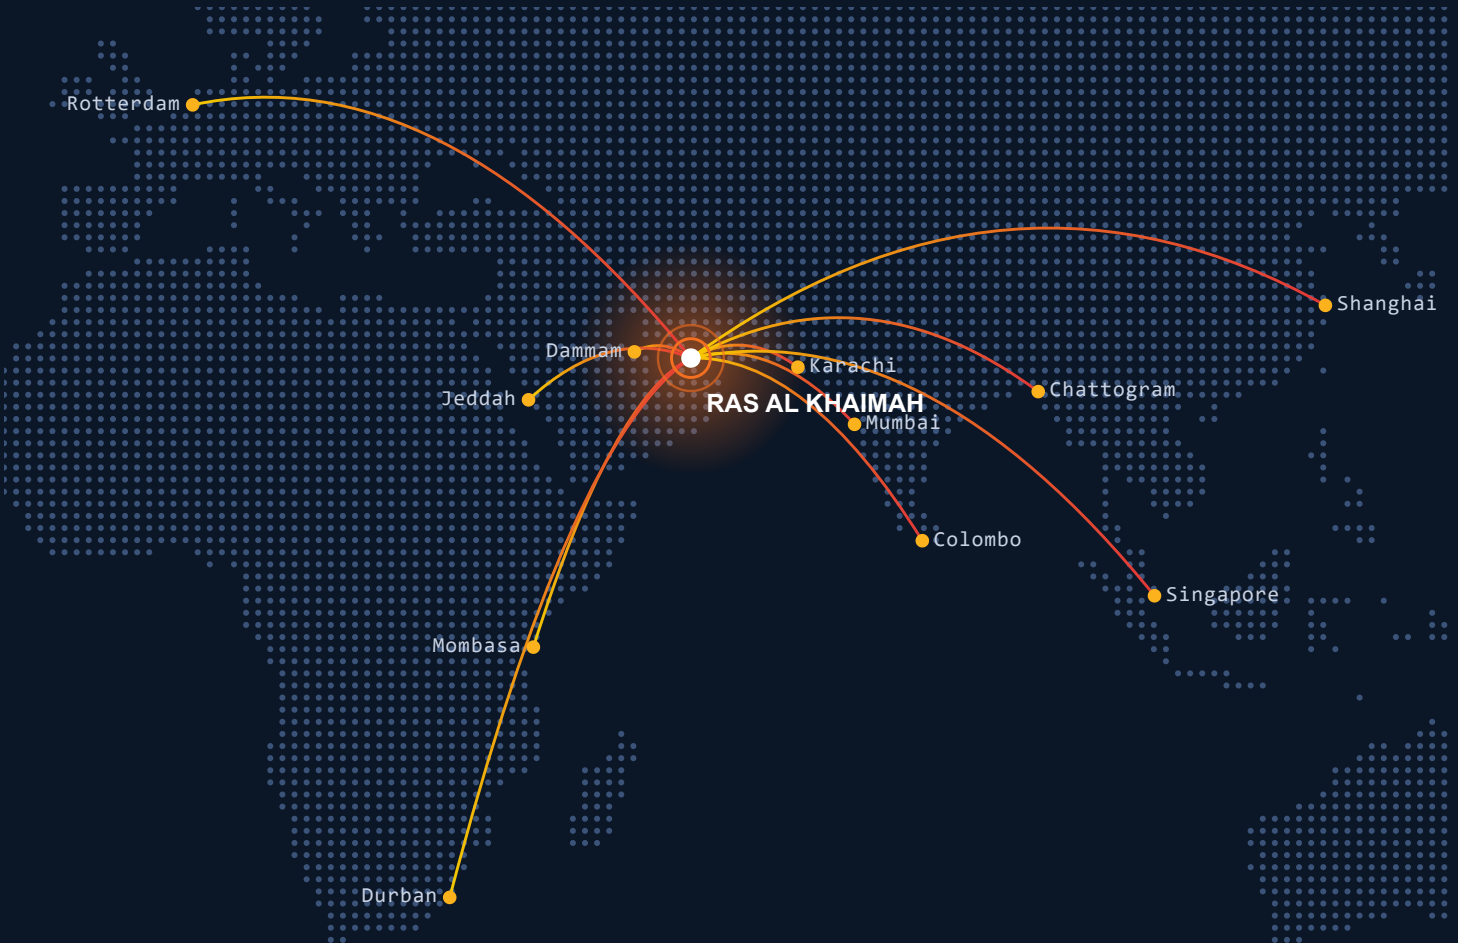

TOWING A LOADED BARGE

TRADING & BROKERAGE

Strong global network. Local expertise.

From Ras Al Khaimah — with direct access to the Arabian Gulf and the Indian Ocean — we connect producers and buyers across the GCC, the Indian Subcontinent, Africa, Asia and Europe.

Why choose Global Star?

NETWORK & PROMISE

Quality you can trust

Graded, consistent materials

Competitive pricing

Global sourcing, low landed cost

Strong global network

Partners across continents

Customer focused

One point of contact, fast answers

On-time delivery

Planned port-to-site logistics

Long-term partnerships

We grow when our clients grow
